

**TO WHOM IT MAY CONCERN**Date  
19.01.12

This letter is to certify that during the production of

**RE: Euro Vanillin Supreme, Aromatic, Regular & Plus  
EuroVanillin Bakery, Chocolate, Dairy & Sweets**

we do not use the following substances:

- |                                    |                           |
|------------------------------------|---------------------------|
| - Acetaldehyde                     | - propionaldehyde         |
| - TBHQ                             | - castor oil              |
| - 2-methylbutylaldehyde            | - 1-butanol               |
| - n - propyl alcohol               | - isoamyl alcohol         |
| - calcium/sodium ferrocyanide      | - potassium iodide/iodate |
| - potassium ferrocyanide           | - sodium aluminosilicate  |
| - calcium silicate                 | - Benzene                 |
| - calcium iodate monohydrate       | - Chloroform              |
| - 1,4-Dioxane                      | - Methylene Chloride      |
| - n-ethyl-4-menthane-3-carboxamide | - Trichloroethylene       |
| - isopropylthioxanthone (ITX)      | - Any Latex compounds     |
| - Coumarin                         | - Melamine                |
| - Cyanuric Acid                    | - Dimethylfumarate        |
| - Balsam of Peru                   | - Diacetyl                |

They also do not contain maize, soya, tomato, celery, oat, wheat, barley, gluten, tricale flour, rye, milk or milk derivatives, any seafood, seeds, sulfites, latex, lupin, mollusk or any nuts and should be free from as of today known allergens and require no special labeling according to EU Directive 2003/89 with amendments.

We also certify that the above products do not contain any ingredient of animal origin including chicken or egg product and also do not contain any colors (for instance such as Sudan 1) or smoke flavours.

They also do not contain any Benzoic Acid, Sorbic Acid, Lignosulphonates, nitrofen or diacetyl.

All EuroVanillin products corresponds to USP/NF, FCC, Eur.Ph, BP and DAB

We use IPA (Isopropanol) and other solvents during production, but the levels do by far comply with ICH-Guidelines on impurities: Residual Solvents; ICH Topic Q3C (R5)

We also analyze by Gas Chromatography every batch produced in order to secure the quality.

We also certify that the above products are not treated by ionizing rays

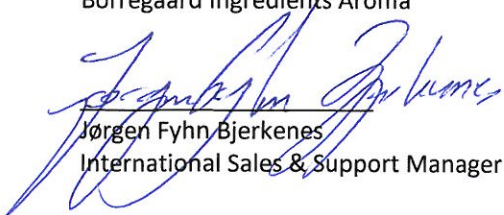

We also certify that the above mentioned products

- Are not genetically modified, not manufactured from genetically modified raw materials, not manufactured by genetically modified organisms and do not contain any genetically manipulated ingredients.
- Comply with Regulation 1334/2008 on flavourings and certain food ingredients with flavouring properties for use in and on foods
- Comply with the Allergens Directive 2003/89/CE with amendments
- Comply with EC Directive 852/2004 – Hygiene of foodstuffs
- Comply with EC Directive 2073/2005 on microbiological criteria for foodstuffs

Yours truly,
